BVPS Physical Security Plan (PSP)

Gentlemen:

Enclosed is Revision 9 to Issue 4 of the Beaver Valley Power Station Physical Security Plan (PSP). Revision 9 changes are limited only to the revised format for the figure showing Temporary Construction Trailers, Fabrication Shops, and equipment now that the refueling outages have been completed.

These changes have been reviewed and judged not to constitute a degradation to the previous commitments in the PSP.

These changes, since they do not decrease the safeguards effectiveness of the Physical Security Plan, are being submitted in accordance with 10 CFR 50.54(p).

The enclosed materials are considered proprietary under the provision of 10 CFR 2.790(d), and Safeguards Information under the provisions of 10 CFR 73.21, and thereby exempt from public disclosure.

Very truly yours,
