Washington, D. C. 20555

Subject: Docket No. 50-482: Revision to the Wolf Creek Generating  
Station Physical Security Plan in accordance with  
10 CFR 73.57

Gentlemen:

This letter transmits an application for amendment to Facility Operating License No. NPP-42 for Wolf Creek Generating Station (WCGS) Unit No. 1. This submittal requests a change to the Physical Security Plan in accordance with 10 CFR 73.57 and Generic Letter 87-10, Implementation of 10 CFR 73.57.

The proposed change will require the submittal of fingerprint cards to the NRC in lieu of the currently required criminal records check prior to granting of interim unescorted access to WCGS. An additional stipulation is proposed that requires that criminal history resulting from the FBI check will be considered along with other evaluative criteria in granting unescorted access. Wolf Creek Nuclear Operating Corporation requests approval of this proposed amendment for use during the upcoming WCGS refueling outage scheduled to begin on March 8, 1990.

A Safety Evaluation, Significant Hazards Consideration Determination are provided as Attachments I and II respectively. Attachment III provides the proposed changes to the Physical Security Plan.

In accordance with 10 CFR 50.91, a copy of this application, with attachments is being provided to the designated Kansas State Official. This proposed revision to the WCGS Physical Security Plan will be fully implemented within 30 days of formal Nuclear Regulatory Commission approval.

If you have any questions concerning this matter, please contact me or Mr. H. K. Chernoff of my staff.

Very truly yours,

Bart H. Withers  
President and  
Chief Executive Officer
