**Subject:** Update on Petition for Rulemaking 50-103

Dear Mr. Fettus,

This e-mail provides an update to your petition for rulemaking (PRM) which requested that the Nuclear Regulatory Commission (NRC) amend its regulations related to combustible gas control (PRM-50-103). The notice of receipt for your petition was published in the Federal Register on January 5, 2012 (77 FR 441). As noted in the notice of receipt, the NRC deferred review of the petition until the recommendations related to the Fukushima Task Force Report were complete. As noted in the September 4, 2018 and March 26, 2019 emails which provided updates on the current status of your petition submittal, this action has been completed. The NRC is currently evaluating the issues raised in your petition.

You can monitor the docket for your petition on the Federal rulemaking Web site, <http://www.regulations.gov>, by searching on Docket ID NRC-2011-0189. The Federal rulemaking Web site allows you to receive alerts when changes or additions occur in a docket folder. To subscribe: 1) navigate to the docket folder (NRC- 2011-0189); 2) click the "E-mail Alert" link; and 3) enter your e-mail address and select how frequently you would like to receive e-mails (daily, weekly, or monthly). The NRC also tracks petitions for rulemaking actions at: <https://www.nrc.gov/reading-rm/doc-collections/rulemaking-ruleforum/petitions-by-year/2011/>.

Please feel free to contact me at Edward.Lohr@nrc.gov or (301) 415-0253 if you have questions or concerns.
