Pending NRC Amendment Request - Additional Information Required				
SUMMARY AND ACTION REQUIRED (IF ANY) This is a summary of the conversation between Laura Cender and Joe Rakowski, Ph.D. that occurred on Nov. 25, 2019 regarding the amendment request letter dated Nov. 7, 2019 (ML19311C794). Specifically, this letter requested to name a number of Authorized Users for materials and uses permitted by 10 CFR 35.100 and 10 CFR 35.200. Currently, 10 CFR 35.100 material is not authorized in Items 6-9 of your license. To add this material to your license please provide a statement that requests "any byproduct material permitted by 10 CFR 35.100," in form "any" and to maximum quantities "as needed." Please also provide a statement confirming that byproduct material will be used for "any uptake, dilution, and excretion study permitted by 10 CFR 35.100." Additionally, please identify the facility listed in Condition 10 of license where 10 CFR 35.100 material will be used. Please confirm that licensed material will only be used at locations within this facility already approved by the NRC. If material will be used at a new location within this facility please provide a facility diagram that meets the requirements described in NUREG 1556 Vol. 9 Rev. 3. Alternatively, you may request to only authorize these physicians for use of material permitted under 10 CFR 35.200, which is already approved on your license. Please submit your management signed and dated response via fax to 630-515-1078 by no later than Dec. 20, 2019.
