Subject: Additional training required for the RSO, Dr. Bridges, NRC license no. 24-18287-01, Mosaic Life Care

Good morning Dr. Bridges,

I am working on adding the Yttrium 90 SIR-Sphere program to your license.

10 CFR 35.50 (d) requires that you as the Radiation Safety Officer obtain training in the radiation safety, regulatory issues, and emergency procedures associated with the use of Yttrium -90 (this is a new modality on the license).

Please submit a signed and dated letter signed by Radiation Safety Officer (named on NRC/Agreement State license for the use of Y-90) attesting/documenting that "Jack Bridges MD received training in the in the radiation safety, regulatory issues, and emergency procedures associated with the use of Yttrium-90 SIR-Spheres on DATE."

I can be reached at 630-829-9875 if you have any questions.
Please acknowledge receipt of this email.

Thank you
