TRAINING: No special training is required for any documents issued with this Change Notice.

REMARKS: IMC 0611, "Power Reactor Inspection Reports," has been revised to clarify direction on how and when to document minor performance deficiencies and violations, as well as documenting very low safety significance issue resolution process determinations. Added additional discussions regarding the creation of staff positions and additional directions for findings to reference any applicable URI closure with its documented closure basis.

IP 71130.11, "Material Control and Accounting (MC&A)," has been revised to include updates based on inspection feedback and changes in agency document standards.
