IDENTICAL LETTERS ADDRESSED TO THE TRAINING MANAGERS OF THE REGION III
FACILITIES LISTED ON THE ATTACHED DISTRIBUTION PAGE

SUBJECT: ANNOUNCEMENT OF GENERIC FUNDAMENTALS EXAMINATION
SECTION OF THE WRITTEN OPERATOR LICENSING EXAMINATION
FOR 2020

The U.S. Nuclear Regulatory Commission (NRC) plans to administer the generic fundamentals examination (GFE) section of the written operator licensing examination on the following dates during this calendar year:

March 4, 2020

September 9, 2020

To register personnel to take the GFE, an authorized representative of your facility can register online at <https://www.nrc.gov/reactors/operator-licensing/electronic-gfe-registration-info.html>, and/or submit a letter to the appropriate regional administrator with a copy addressed, as follows:

Chief, Operator Licensing and Human Factors Branch, NRR
Mail Stop O4 A17M
U.S. Nuclear Regulatory Commission
Washington, DC 20555-0001

Pursuant to Title 10 of the *Code of Federal Regulations* Section 55.31(a)(3), an applicant for an operator license must submit a written request from an authorized representative of the facility licensee by which the applicant will be employed that the written examination and operating test be administered to the applicant. The NRC permits a request for administration of the GFE section of the written exam to be made and granted prior to the applicant's successful completion of the facility licensee's requirements to be licensed as an operator or senior operator and prior to the facility licensee's certification of the need for an operator or a senior operator to perform assigned duties. However, the facility licensee should only request administration of the GFE section of the written exam for applicants who will have completed fundamentals training by the date of the examination.

The letter should identify the individuals who will take the examination. The letter should also identify the personnel who will have access to the examinations before they are administered (e.g., proctors) and include the address and name of the individual to whom the examinations are to be sent.

To allow the NRC to assign docket numbers, both the NRC Regional Administrator and the Chief, Operator Licensing and Human Factors Branch, should receive your letter **30 calendar days before each desired examination date** shown above. A sample registration letter is enclosed.

Copies of the administered boiling-water reactor and pressurized-water reactor GFEs and their answer keys will be available for review in the NRC's Agencywide Documents Access and Management System (ADAMS) immediately after administration of the second subsequent GFE. The NRC will also update its GFE Web page, <http://www.nrc.gov/reactors/operator-licensing/generic-fundamentals-examinations.html>, at that time.

If you have any questions concerning this examination, please contact Eric Cushing at 301-415-1064.

Sincerely,

Robert J. Orlikowski, Chief
Operations Branch
Division of Reactor Safety
