Docket No. 50-302
Operating License No. DPR-72
Nuclear Safety Task Force Follow Up

Dear Mr. Denton:

In our letter of March 6, 1981, Florida Power Corporation stated we would provide you with a schedule and resources estimate for all Nuclear Safety Task Force recommendations which will result in engineering studies to be completed in 1981. By this letter, Florida Power Corporation fulfills that commitment.

Attachment 1 is a detailed schedule for completion of the engineering studies identified in our March 6, 1981, letter. We anticipate that completion of the engineering work identified in Attachment 1 will involve the expenditure of approximately \$70,000. We will advise you of the results of these studies and our plans for further pursuit of these items early in 1982. We will also advise you promptly of any significant safety concerns resulting from these studies.

Very truly yours,

P. Y. Baynard

Nuclear Safety Task Force Follow Up

In our March 6, 1981 response, FPC identified 23 Nuclear Safety Task Force recommendations which will require additional evaluation. Of these 26 items, 7 have been identified as known problems which will require a formal engineering study to determine the best alternative solution. These are safety Task Force recommendations 1.21, 3.13, 3.22, 3.23, 5.82, 6.1, and 6.8. A schedule for the completion of the studies for these items is shown below. The remaining 19 items are in FPC's opinion potential problems that require additional investigative research before it is determined that a problem exists. The schedules for this investigative work for each of these items is shown below. The remaining 19 items are in FPC's opinion potential problems that require additional investigative research before it is determined that a problem exists. The schedules for this investigative work for each of these items is shown below. Following completion of our additional review of each of these items, we will provide you with our conclusions and justification for these conclusions as to whether or not a problem exists. In the cases where actual problems are identified, we will provide you with our schedule to resolve each item.

Safety Task Force Recommendation

Schedule for Study or Review

1.21	7-3-81
3.13	8-14-81
3.22	8-14-81
3.23	8-28-81
5.82	6-12-81
6.1	10-16-81
6.8	12-31-81
1.19	5-22-81
5.65	5-29-81
5.105	5-29-81
5.106	6-12-81
3.21	6-12-81
5.75	6-26-81
5.76	6-26-81
5.113	7-3-81
5.95	7-13-81
3.6	7-13-81
3.9	8-7-81
3.10	8-14-81
5.35	8-21-81
3.12	8-28-81
