Your letter of February 20, 1981, requested that as part of our Appendix R submittal of plans and schedules for meeting the requirements of Sections III G, J and O of Appendix R, we include the results of our reassessment of the design features. Your letter stated that the detailed information need not be submitted by March 19, 1981, the due date for responses to Appendix R, but should be forwarded no later than May 19, 1981.

As stated in our letter dated March 19, 1981, (L1L 077) to Appendix R, we consider Item III J to be resolved with our existing modifications, and we are requesting an exemption from the requirements of Item III O. Based on these responses, no further detailed information will be forthcoming with respect to Items III J and O. Our responses to Item III G committed to submit the criteria and schedule for engineering and installation of the identified modifications by December 15, 1981. This December submittal should fulfill your request for detailed information. Therefore, we consider this letter an adequate response to your February 20, 1981 letter.
