Glenn Ellyn, Illinois 60137

Attention: J.G. Keppler

Project: South Texas - 1073  
Personnel Air Lock Unit #2

Subject: Potential Nonconformance (PART 21)

Reference: W.J. Woolley letter dated April 20, 1981

Location: Murdock, Inc.  
Compton, California

Gentlemen:

An extensive review/inspection of the documentation, travelers, procedure, and hardware was performed. There were no deficiencies evident which would show cause to generate a reportable nonconformance.

All deviations that were noted during this review have been or will be corrected prior to shipment of the air locks.

Very truly yours,

W. J. WOOLLEY COMPANY
