

U.S. Nuclear Regulatory Commission
Washington, DC 20555

Rouse

DOCKET NUMBER 150-254-26
PROD. PETIC. FAC.

To whom it may concern:

I wish to voice my

to the increase of the combined spent fuel
storage capacity requested by Commonwealth
Edison & Iowa-Illinois Gas & Electric Company
at the Quad Cities Nuclear Power Station
near Cordova, Illinois.

Americans do have the right
over their own lives and that radioactive
waste effectively denies me, as an American
Citizen, that right.

Thank you
