June 1, 1981

Mr. Boyce H. Grier, Director  
Office of Inspection and Enforcement  
Region 1  
U.S. Nuclear Regulatory Commission  
631 Park Avenue  
King of Prussia, PA 19406

ATTENTION: Mr. Thomas T. Martin, Chief  
Engineering Inspection Branch  
Division of Engineering and Technical Inspection

Gentlemen:

NRC INSPECTION 50-272/80-31  
SALEM GENERATING STATION  
UNIT NO. 1

In response to your inspection conducted by Dr. Jin W. Chung during the period November 17-21, 1980, we committed to a June 1, 1981, date for full compliance to Administrative Procedure No. 3 regarding the review of all Operating Instructions. To date the review status is as follows:

- a) One hundred thirty-one (131) Operating Instructions have been completed.
- b) One hundred twenty-four (124) Operating Instructions have been reviewed/revised and are in routing for final approval. Of these Instructions fifty-four (54) do not meet the AP-3 requirements for review.
- c) One procedure has not been reviewed/revised as of this date. The required review date for this procedure is June 29, 1981.

To Mr. Boyce H. Grier

-2-

6/1/81

Due to forced outages of Unit 1 and Fire Protection Program studies for Unit 2 start-up, the necessary reviews of the Operating Instructions could not be completed as scheduled. Therefore, we are requesting an extension to September 1, 1981, for full compliance.

H. J. Midura  
Manager - Salem Generating Station
