RE: WM. H. ZIMMER NUCLEAR POWER STATION UNIT 1  
IE BULLETIN 81-02, DOCKET NO. 50-358,  
V.O. 57000, JOB E-5590

Gentlemen:

This letter is our response to your letter of April 9, 1981, which requested a written response to IE Bulletin No. 81-02.

We have investigated all pertinent documents concerning gate-type valves purchased for the Wm. H. Zimmer Nuclear Power Station Unit 1. We have found that neither the Westinghouse EMD valve nor the Borg-Warner NVD gate valve has been purchased or supplied to the Zimmer Project. Since none of the affected valves were furnished to the Zimmer Plant, we plan to take no further action relative to IE Bulletin No. 81-02.

The above response to the subject Bulletin was previously submitted by letter dated June 29, 1981, and is hereby being re-submitted to indicate signature under oath which was inadvertently omitted from the original submittal.

Yours very truly,

*E. A. Borgmann*
