Re: Docket No. 50-275
Docket No. 50-323

Dear Mr. Engelken:

This is a follow-up response to IE Bulletin No. 80-21. Prior responses were provided in our letters to you dated January 21 and April 7, 1981.

At the time of our April 7, 1981 response, all but manually operated valves for use in safety-related systems had been reviewed and none were found to have utilized Malcolm Foundry parts.
