

Omaha Public Power District

1623 HARNEY ■ OMAHA, NEBRASKA 68102 ■ TELEPHONE 536-4000 AREA CODE 402

July 2, 1981

Mr. Robert A. Clark, Chief
U. S. Nuclear Regulatory Commission
Office of Nuclear Reactor Regulation
Division of Licensing
Operating Reactors Branch No. 3
Washington, D.C. 20555

Reference: Docket No. 50-285

Dear Mr. Clark:

Omaha Public Power District's letter to the Commission dated January 6, 1981, endorsed the EPRI sponsored safety and power operated relief valve testing program. This program was initiated in response to NUREG-0737, Task II.D.1, and the District is participating in it. The letter to the Commission from R. C. Youngdahl (Consumers Power) dated December 15, 1980, detailed EPRI's schedule for the generic testing program. This schedule has been modified as explained in the R. C. Youngdahl letter to the Commission dated July 1, 1981.

Omaha Public Power District will submit evaluations and plant specific data on a schedule consistent with the R. C. Youngdahl letter of December 15, 1980, and as modified on July 1, 1981. The July 1, 1981, letter also forwards the Interim Data Report for the EPRI PWR safety and relief valve test program. This report summarizes the test data collected to date on relief and safety valves.

Sincerely,

W. C. Jones
Division Manager
Production Operations
