Division of Operating Reactors
Office of Nuclear Reactor Regulation
U.S. Nuclear Regulatory Commission
Washington, D.C. 20555

Dear Sir:

Subject: Oyster Creek Nuclear Generating Station
Docket No. 50-219
Low Level Radioactive Waste Disposal

This is in response to your letter of January 29, 1980. Significant engineering efforts have been in progress to comply with July 1, 1981 site requirements for receipt and handling of radioactive waste forms and their containers at Barnwell, South Carolina. A portable radwaste cement solidification system is being constructed to supplement systems presently in use at Oyster Creek Generating Station in order to accomplish the above mentioned compliance.

In accordance with your request, we are submitting a Safety Evaluation and the applicable Process Control Programs to you. These are in the form of attachments to this letter. This information is being provided prior to system operation in accordance with your request.

In the event that you have any questions or comments, please contact Mr. J. Knubel at (201) 299-2264.

Sincerely,

Ivan R. Finfrock Jr.
Vice President - JCP&L
Director - Oyster Creek
