Re: NRC Docket No. STN 50-437: Offshore Power Systems'
Application for License to Manufacture Floating
Nuclear Plants, Amendment No. 28

P. B. Haga

Director
Power Systems Technology

Dear Sir:

Offshore Power Systems hereby amends its application for License to Manufacture Floating Nuclear Plants by filing Amendment No. 28, dated July 15, 1981, to the Plant Design Report.

Amendment No. 28 deals solely with the subject matter of the Plant Design Report previously submitted and provides responses to NUREG-0718, "Licensing Requirements for Pending Applications for Construction Permits and Manufacturing License". Amendment No. 28 also incorporates into the Plant Design Report information previously submitted by letter in response to Mr. R. L. Baer's letter of October 17, 1979. Amendment No. 28 also includes changes in the anticipated schedule for manufacturing Floating Nuclear Plants as well as other changes and errata to the text of the Plant Design Report. Instructions for the use of replacement pages are provided.

Amendment No. 28 consists of:

1. Three (3) originals of this letter.
2. Sixty-seven (67) conformed copies of this letter.
3. Seventy (70) sets of change pages, described above.

Consonant with 10 CFR 2.101, this amendment to the Offshore Power Systems' Application for License to
