Mr. Morton B. Fairtile
U.S. Nuclear Regulatory Commission
Operating Reactors Branch #4
Division of Licensing
Washington, D.C. 20555

Dear Mr. Fairtile:

I appreciated receiving your letter dated July 8, 1981, and request that my name be retained on the distribution list for all correspondence issued by the NRC related to Plant Hatch (Docket Nos. 50-321 and 50-366).

As you may know, Southern Company Services is the service company for the Southern electric system of which Georgia Power Company is a part. Accordingly, our organization is constantly engaged in licensing and engineering activities that are needed by Georgia Power Company to support the operation of Plant Hatch. Consequently, it is imperative that we continue to receive information from the NRC on the Plant Hatch dockets in order to maintain our cognizance of current licensing requirements and to maintain quality and timely service to Georgia Power.

If there is any further question regarding this matter please do not hesitate to call me.

Yours truly,

W.C. Ramsey Jr.
O. Batum
