Docket Nos: STN 50-482, STN 50-483, and STN 50-486

- References: 1. SLNRC 80-54, dated November 26, 1980
2. SLNRC 81-22, dated April 1, 1981
3. SLNRC 81-46, dated June 19, 1981

Gentlemen:

This letter is submitted in response to the subject IE Bulletin for the SNUPPS Utilities, Kansas Gas and Electric Company and Union Electric Company.

The referenced letters reported the potential failure to close of Westinghouse-EMD valves in the SNUPPS design. These reports were made pursuant to 10 CFR 50.55(e). IE Bulletin 81-02 has been reviewed and is applicable to SNUPPS.

The information requested by Bulletin 81-02, that was not included in the referenced letters, has not been received from SNUPPS contractors in time for the requested Bulletin response date. SNUPPS Utility review of the vendor information should be complete within two weeks and a Bulletin response will then be submitted.

Very truly yours,

Nicholas A. Petrick
