Docket No. 50-282 License No. DPR-42
50-306 DPR-60

Revised Main Control Room Habitability Study

In a letter dated January 30, 1981 Northern States Power Company submitted for NRC review the control room habitability study for Prairie Island required by NUREG-0737, Item III.D.3.4. Following submittal of this report, errors were discovered in the assumptions used in the radiological analysis. In addition, some of the information in the toxic chemical study was incomplete. A corrected report is attached.

Modifications recommended in Section 8 of the toxic chemical study will be scheduled for completion by January 1, 1983.
