Office of Nuclear Reactor Regulation  
US Nuclear Regulatory Commission  
Washington, D.C. 20555

Attention: Ms. E. G. Adensam, Chief  
Licensing Branch No. 4

Dear Ms. Adensam:

Subject: WASHINGTON PUBLIC POWER SUPPLY SYSTEM  
NUCLEAR PROJECT NOS. 1 AND 4  
DESIGN AND CONSTRUCTION QUALITY ASSURANCE  
PROGRAM FOR WNP-1/4

Attached for your information are program descriptions implemented during the Design and Construction phase of WNP-1/4 for principal contractors of the Supply System, as requested by R. Hernan of your staff in verbal discussions with A. G. Hosler of the Supply System.

Please refer to Babcock & Wilcox NRC approved Topical Report BAW-10096A, Revision 3, for a program description of the NSSS Supplier.

If we can be of further assistance please advise.

Very truly yours,

G. D. Bouchey  
Director, Nuclear Safety

WNP-1/4  
PSAR DEVIATION REQUEST

17.1-6 (WP)	Volume 7	Chapter 17.1	May 14, 1981
DEVIATION NO.	PSAR VOLUME NO.	PARAGRAPH NO.	DATE

1. PSAR COMMITMENT AS OF \_\_\_\_\_ (LAST AMENDMENT DATE): (include SAR statement Chapter 17.1 (Deviation 17.1-4) currently describes the Supply System Quality Assurance Program implemented at the Corporate Level as the Supply System site quality organization was integrated with UE&C to function as a joint Quality Assurance organization in July 1978.

2. DESIRED CHANGE: (indicate desired statement)

Revise Chapter 17.1 to accurately describe the current Corporate structure and Supply System Project Quality Assurance organization now that the Supply System quality site organization is no longer functioning as a joint site Quality Assurance organization with UE&C.

3. STATEMENT IDENTIFYING SIGNIFICANCE OF DEVIATION: (i.e., what is being proposed that is different from PSAR commitment)

Reporting relationship of Supply System Project Quality Assurance organization

(17.1) Clarification on extent of Supply System Engineering responsibilities

(17.1) Changes described do not detract from the Supply System's ability to comply with commitments to 10CFR50 Appendix B or ANSI N45.2 as delineated in the PSAR

4. JUSTIFICATION: (i.e., explain why the desired change is justified and is expected to be defensible before the NRC)

This deviation request is required to reflect the revised Supply System responsibilities now that the Bechtel Power Corporation has assumed Construction Management and QA services for WNP-1/4. PSAR amendment is not required as changes described do not alter in a non-conservative manner previous commitments in the PSAR

5. WPPSS APPROVALS:
