Dear Mr. Kintner:

Enclosed, please find five blue line prints each of Edison study drawings SQRA-001, 002, 003, 004, dated July 30, 1980, which are being sent at the request of Mr. Banand Jaganath.

These drawings depict the various back filling and grading details employed in the installation of the buried safety-related piping running from the Reactor Building to the RHR complex.

If you require our further input, please advise.

Yours very truly,

W.F. Colbert
