Vogle Project

July 21, 1981

United States Nuclear Regulatory Commission
Office of Inspection and Enforcement
Region II - Suite 3100
101 Marietta Street
Atlanta, Georgia 30303

File: X7BG02-M18
Log: GN-139

Ref.: Vogle Electric Generating Plant-Units 1 and 2, 50-424 and 50-425;
Containment Liner Penetrations; letter GN-129, dated April 20, 1981.

Attention: Mr. James P. O'Reilly

Gentlemen:

In our previous letter, Georgia Power Company indicated a final response concerning the reportability of the above-referenced item would be submitted to the Commission on or before July 17, 1981. Georgia Power Company has recently received an engineering evaluation concerning these penetrations, which preliminarily indicated that the above item was not reportable under 10 CFR 50.55e or Part 10 CFR 21. Currently this evaluation is being reviewed by Georgia Power Company.

Georgia Power Company now expects to submit a final report to the Commission by August 7, 1981, concerning the reportability of the above item.

This response contains no proprietary information and may be placed in the NRC Public Document Room upon receipt.

Yours truly,

Doug Dutton
Project General Manager
