EDWIN I. HATCH NUCLEAR PLANT UNITS 1, 2
NUREG 0737 ITEM II.B.2 - POST ACCIDENT SHIELDING

Gentlemen:

Your June 10, 1981 letter requested that the final post-accident plant shielding analysis and design be submitted for review. Enclosed is that report. It should be noted that this report is a revision of the previous submittal and engineering design which had been completed in 1980. That design was determined to be impractical for implementation and the present re-analysis and design were developed for use. If you require further information, please contact my office.

Yours very truly,

J. T. Beckham, Jr.
Vice President and General Manager
Nuclear Generation
