Mr. Frank J. Miraglia  
Acting Chief  
Licensing Branch No. 3  
Division of Licensing  
Office of Nuclear Reactor Regulations  
Washington, D.C. 20555

Dear Mr. Miraglia:

This is in response to a letter from Mr. Masnik on June 24, 1981, transmitting a copy of the Biological Assessment on the Grand Gulf Nuclear Station Project (Log no. 4-3-80-54) and requesting our concurrence that the project will not have an adverse impact on any threatened or endangered species.

After a review of the Biological Assessment as well as an evaluation of data in our files, we concur with your determination that the project will not significantly affect any Federally-listed species.

Please advise if we can be of additional assistance.

Sincerely yours,

*Dennis B. Jordan*
