Attn: San Onofre Licensing Proceedings

Gentlemen:

As a concerned citizen I am vitally concerned that the economic, environmental, and social well-being of the State of California be maintained; and an adequate supply of energy is critical to meet these needs.

This nation's continued overdependence on foreign oil has caused major adverse economic impacts, and the situation in the Middle East must be considered a constant threat to our national security.

Regulatory delays in the planning and licensing of needed energy facilities are extremely costly to the consumer, damaging to the environment, and result in continued importation of foreign oil. Therefore, I support the immediate and expeditious licensing of San Onofre Units II and III with all due and deliberate speed.

Sincerely,
