Mr. Samuel Chilk, Sec.
U.S. Nuclear Regulatory Commission
Washington, DC 20555

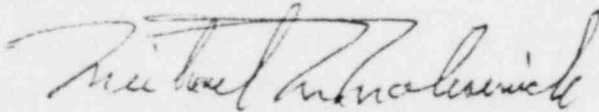

Mr. Chilk:

The purpose of this letter is to request time to make a limited appearance statement during the licensing hearings for the Pennsylvania Power and Light Company's Susquehanna Steam Electric Station, docket nos. 50-387 and 50-388.

I would like to be notified in advance when the hearings will be.

In order to make these hearings available to the public as much as possible, the board should hold them on evenings during the week or during the day on weekends.

Thank you,

Michael M. Molesevich
