Gentlemen -

I am very concerned about the disastrous effects that licensing Diablo Nuclear Plant for operation will have on a residential community as well as communities for 15 miles around Diablo in all directions - including the ocean.

I live within 3 miles of Diablo - having given up my home in San Luis Obispo & having a lovely home built several years before Diablo was built. There are many beautiful

DS03
1/0

homes built in this area
and the area has become
a community of retirees with
some younger families included.

Because of the constant rad-
iation fallout, the entire
area is unsafe, healthier,
for young children, their
parents & the retirees. The
food that is grown in this
area & Santa Maria will
be unsafe to eat. I am
wishing to protest the opening
of the Diablo Nuclear Plant
as it will be detrimental to
everyone's health & the environ-
ment. Very I hear from you?
Yours truly,
Betty E. Lindsay

To Whom It May Concern:

I am a resident of San Luis Obispo county,
I am opposed to the licensing of Diablo Canyon
nuclear power plant. The proximity of an
active earthquake fault, the unresolved problems
of nuclear waste disposal, and the lack of
an evacuation plan all make this plant an
unacceptably dangerous hazard to the people
who live here. I urge you to prevent
the operation of this nuclear plant.

Sincerely,
Martha Hildesley
