## A REASONABLE COMPROMISE SOLUTION

### ✓ **CONVERT DIABLO CANYON**

✓ (3 U.S. Nuclear Plants Have Been Converted)

✓ A "Nuclear" Diablo is unacceptable to me.

✓ Diablo's projected life-span of 35 years is not reasonable when considering the risks associated with the plant's location (3 miles from the active Hosgri Fault), nuclear waste disposal problems, and inadequate evacuation routes.

✓ I support the blockade if a license is granted.

Sirs:

We are a San Luis Obispo couple and the following is our plan concerning Diablo Canyon Nuclear Power Plant:

- 1) we sold our business two years ago
- 2) we sold our apartment building one year ago
- 3) we plan to sell our two homes this year.
- 4) We are moving to an area free of nuclear plants or waste disposal sites.

My husband worked as an electrician for 1 year at Diablo. We know a radiation leak is very probable - not from an earth quake, but through human error.

Sincerely,  
Nancy J. Sweet
