## A REASONABLE COMPROMISE SOLUTION

### CONVERT DIABLO CANYON

(3 U.S. Nuclear Plants Have Been Converted)

A "Nuclear" Diablo is unacceptable to me.

Diablo's projected life-span of 35 years is not reasonable when considering the risks associated with the plant's location (3 miles from the active Hosgri Fault), nuclear waste disposal problems, and inadequate evacuation routes.

I support the blockade if a license is granted.

*I strongly oppose the opening  
of Diablo Canyon. The risks  
are far too great. I support  
the proposal that the plant  
be converted to another fuel  
source. I support the  
blockade if the license  
is granted.* Elaine E. Holder
