U.S. Nuclear Regulatory Commission

Region 5

1940 N. California Blvd.

Walnut Creek, CA 94596

To Whom It May Concern,

I am writing to inform you of my protest against the proposed operation of the Diablo Canyon Nuclear Power Plant. Nuclear power is dangerous and not cost-effective. The hazards of nuclear waste pose a threat to the survival of present and future generations. Please deny Diablo the license to operate as a nuclear facility.

Sincerely,

Deborah Clark
