Licensing Branch No. 4

Re: McGuire Nuclear Station  
Docket Nos. 50-369, 50-370

Dear Mr. Denton:

My letter of April 3, 1981 addressed how McGuire Nuclear Station complied with certain NRC emergency preparedness requirements. This letter also stated that evacuation time estimates would be revised utilizing the criteria described in Appendix 4 to NUREG-0654, FEMA-REP-1, Revision 1 and would be incorporated into the McGuire Emergency Plan by August 3, 1981. Please be advised that the actual work involved in determining the revised evacuation time estimates has been completed. However, it will be several weeks before the information is in final form for inclusion in the McGuire Emergency Plan. It is our intention to revise the McGuire Emergency Plan and submit this information to NRC by August 21, 1981.

If you have any questions regarding this matter, please advise.

Very truly yours,

*William O. Parker, Jr.*
