

July 20, 1981

Mr. Darryl G. Eisenhut  
Director  
Division of Licensing  
Nuclear Regulatory Commission  
Washington, D.C. 20555

Re: Docket nos. 50-352 and 50-353

Dear Mr. Eisenhut:

Thank you for sending me a copy of your letter to Mr. Edward Bower dated July 6, 1981, regarding the acceptance review of application for operating licenses for the Limerick generating station. In my review of the document, I have found that enclosure number 4, the Request for Additional Information for the EROL, is unintelligible with respect to the comments on E240.4, E240.9, and other aspects. Since this is a critical document, I would appreciate receiving a complete copy of enclosure number 4 that is intelligible.

Thank you very much for your consideration.

Sincerely,

Robert J. Sugarman
