

Aug. 1, 1981

Dear Regulatory Commission,

As residents of this County I am disturbed by the actions of the part time, new residents and professional demonstrators who are attempting to run our government. The Medfly episode is a good example of that kind of thinking.

Do license Diablo Nuclear

Plant. Years ago the residents gave their approval to PG&E.

We've been long time residents and know the need for water and energy in this area.

Sincerely,
Ralph and Sylvia Varhies
