| <div> <div>02</div> <div>While in mode 3, the NRC Resident Inspector found a fire-door open. No fire-watch was posted and Operations was not aware that the door was open. Upon notification, the door was declared inoperable per TS.3.7.11 which is reportable per TS.6.9.1.13(b). If a fire had broken out in the area, the open fire-door could have made it more difficult to control the fire. Since there were no fires, the health and safety of the public was not affected.</div> </div> | | | | | | | | | | | | | | | | | | | |

| <div> <div>10</div> <div>The door was held open by tie-wraps, and an electrical cord was running through the doorway to a receptacle. Apparently personnel working in the area did not let Operations know that the fire-door would be left open, did not post a firewatch, and failed to close the door when they left. The door was closed, and various departments were made aware of the problem.</div> </div> | | | | | | | | | | | | | | | | | | | |
