Docket No. 50-364

Director of Nuclear Reactor Regulation
U. S. Nuclear Regulatory Commission
Washington, D. C. 20555

Attention: ✓ Mr. S. A. Varga
Mr. B. J. Youngblood

Gentlemen:

Diesel Generator
Technical Specification Change
Units 1 and 2

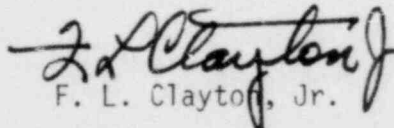

This letter supplements our letter of this date which requested an extension to the LCO's in the Diesel Generator Technical Specifications for Units 1 and 2. That request sought further extension of these LCO's from nine days to fifteen days. Alabama Power Company hereby officially requests an emergency change to the Technical Specifications for Units 1 and 2 to allow this extension.

This proposed change has been reviewed by the Plant Operations Review Committee and Nuclear Operations Review Board and has been determined not to involve an unreviewed safety question.

By separate letter the fee for filing such request (\$4,400.00 for both units) will be submitted on Monday, August 10, 1981.

If there are any questions, please contact us.

Yours very truly,

F. L. Clayton, Jr.
