Dear Mr. Kintner

Reference: Enrico Fermi Atomic Power Plant, Unit 2
NRC Docket No. 50-341

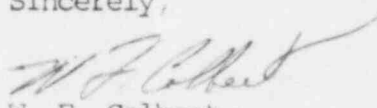

Subject: Reverse Testing of Butterfly Valves

During telecon with your John Lane on August 13, 1981, the request was made for documents supporting the conservatism of reverse testing of butterfly valves.

In response to this request, enclosed are:

1. Jamesbury Corporation letter to Edison, May 15, 1979
2. Detroit Edison memo EF2-45091, Revision A, June 4, 1979
3. Design Change Notice 1644, Revision B, March 25, 1980

Sincerely,

W. F. Colbert
