

THE CINCINNATI GAS & ELECTRIC COMPANY

E. A. BORGMANN  
SENIOR VICE PRESIDENT

Docket No. 50-358

September 1, 1981

Mr. Harold Denton, Director  
Office of Nuclear Reactor Regulation  
U.S. Nuclear Regulatory Commission  
Washington, D.C. 20555

RE: WM. H. ZIMMER NUCLEAR POWER STATION -  
UNIT 1 - PROMPT NOTIFICATION IN THE EVENT  
OF AN EMERGENCY

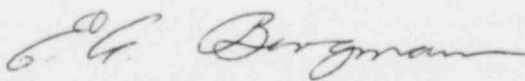

Dear Mr. Denton:

Please refer to our August 18 letter on the same subject. Inadvertently, a typographical error was made in the transmittal letter. The typographical error appeared in the sentence beginning on Line 8. The sentence in the August 18 letter reads: "It should be noted that the proposed alternate warning system on page six of the system description has been determined by Cincinnati Bell to be feasible." The sentence should have read: "It should be noted that the proposed alternate warning system on page six of the system description has been determined by Cincinnati Bell to be infeasible." This typographical error has been called to the attention of the NRC's Licensing Project Manager.

Very truly yours,

THE CINCINNATI GAS & ELECTRIC COMPANY

By   
E. A. BORGMANN
