SEA: EXPERT WITNESSES

Pursuant to the Board's order of August 14, 1981 in the above-captioned matter, SEA hereby submits the following list of proposed expert witnesses:

1. CONTENTION 4 (Need for Power):

Mr. Rich Rosen
Energy Systems Research Group
Boston, Mass. 02109
617-426-5844

ESRG is a well-known consulting firm with extensive background in load growth and need for power issues. Mr. Rosen has personally done work on the PJM power pool.

2. CONTENTION 20 (Emergency Plans):

Dr. Jan Beyea
National Audubon Society
950 Third Avenue
New York, NY 10022
202-547-9009

Dr. Beyea has done much work on emergency planning and preparedness, and the consequences of a Class 9 accident.

3. CONTENTION 21 (Scram Discharge Volume):

MHB Associates
403-266-2716

4. CONTENTION 22 (Proposed) - (Class 9 Accidents):

Dr. Jan Beyea

SEA would emphasize that because of our limited financial resources and the Board/Agency's refusal to fund intervenors, and because of the short time spans involved, this list is not definite. We have spoken with ESRG and Dr. Beyea. MHB Associates has been recommended to us. ESRG's availability depends primarily on the cost of the intervenors. Dr. Beyea's depends on the nature of the issues involved in the contention.

SEA was under the clear impression that only the names and qualifications of expert witnesses needed to be filed by August 25 and that there was no mention of the "substance of testimony". We will make every effort to file written testimony twenty-one days before the hearing date.

Respectfully submitted,

Gerald R. Schultz
