Docket Nos. STN 50-482, STN 50-483, and STN 50-486

Reference: SLNRC 81-65, dated August 31, 1981, same subject

Dear Mr. Denton:

Item #6 in the referenced letter discussed post-irradiation surveillance of fuel. In discussions with the NRC project manager for SNUPPS and the Core Performance Branch reviewer on September 8, 1981, it was determined that further clarification of this item was required. The SNUPPS Utilities will conduct post-irradiation poolside surveillance of fuel assemblies.

Very truly yours,
