Re: Pennsylvania Power & Light Co. and Allegheny
Electric Cooperative, Inc. (Susquehanna Steam
Electric Station, Units 1 and 2),
Docket Nos. 50-387, 50-388

Dear Members of the Board and Parties:

As discussed during the last prehearing conference, the Commission agreed to serve the draft emergency plans for Columbia County and the municipalities in both Columbia and Luzerne Counties, where available. The following emergency plans are enclosed:

- (1) Columbia County Radiological Emergency Response Plan For the SSES (DRAFT) (August 1981);
- (2) Municipal Plans for 6 of 8 municipalities within the plume exposure pathway EPZ for Columbia County; and
- (3) Municipal Plans for 14 of 19 municipalities within the plume exposure pathway EFZ for Luzerne County.

The remaining municipal plans are under development and will be served as soon as available.

In addition, there have been a number of revisions to the Luzerne County plan served on the parties last month. Copies of these revisions, along with instructions for page replacement, are also enclosed.

I wish to reemphasize that the emergency planning process for Susquehanna is lengthy and ongoing. All of the enclosed plans are subject to further change based on continued review. For example, some of the municipal plans are being revised to reflect recent changes in the county plans. The plans that have been served on the parties are being submitted to the FEMA Regional Assistance Committee (RAC) for review and comment.

Yours truly,
