Attention: Mr. Thomas A. Ippolito, Chief
Operating Reactors Branch No. 2
Division of Licensing

Subject: James A. FitzPatrick Nuclear Power Plant
Docket No. 50-333
Control of Heavy Loads

- References: 1. Letter, D.G. Eisenhut (NRC) to all Operating
Reactors dated December 22, 1980
2. Letter, J.P. Bayne (PASNY) to T.A. Ippolito (NRC)
dated May 18, 1981 (JPN-81-37)

Dear Sir:

Reference 1 requested the implementation of interim actions to control heavy loads and the submission of additional information in six month and nine month reports. In Reference 2 the Power Authority requested that the due date for submission of the six and nine month reports be changed to September 1 and November 1, 1981, respectively.

Although a substantial effort to compile both reports was promptly undertaken, they could not be completed on schedule. Therefore, the Power Authority requests that the submittal dates for the six and nine month reports be changed to October 15 and December 1 respectively. The reports will be completed and submitted to the NRC by that date.

If you have any questions, please do not hesitate to contact us.

Very truly yours,

J. P. Bayne
Senior Vice President
