Docket Nos. 50-352 & 50-353

Office of Nuclear Reactor Regulation
Attention: Mr. Donald Calkins - Project Manager
Licensing Branch Number 2, DL
U. S. Nuclear Regulatory Commission
Washington, D.C. 20555

Gentlemen:

As requested in your letter dated November 11, 1976, from K. Kniel, Chief Light Water Reactors, to E. G. Bauer, Jr., Philadelphia Electric Company regarding notification upon completion of the Limerick Spray Pond Excavation, we wish to inform you that the next (2nd) section of the spray pond excavation will be complete and available for your inspection the week of October 5, 1981.

At this time we are also notifying you that the last two (3rd and 4th) sections of the spray pond excavation will be complete and available for your inspection the week of October 26, 1981.

Please let us know when you expect to make your inspection for the above periods so that we may have the appropriate personnel present during your visit.

If you require clarification or further information concerning this item, please contact us.

Very truly yours,

R. H. Logue
Engineer-in-Charge
Nuclear & Environmental Section
