

ATTACHMENT I

PROPOSED TECHNICAL SPECIFICATION CHANGES

RELATED TO

SITE EVACUATION EXERCISE SCHEDULE

POWER AUTHORITY OF THE STATE OF NEW YORK
JAMES A. FITZPATRICK NUCLEAR POWER PLANT
DOCKET NO. 50-333

6.12 INDUSTRIAL SECURITY PROGRAM

(A) An industrial security program shall be maintained throughout the life of the plant in accordance with the provisions of the Plant Security Plan. Annual review of the Plant Security Plan shall be performed by the Plant Operating Review Committee and the Safety Review Committee.

6.13 EMERGENCY PLAN

(A) A Site Emergency Plan shall be maintained throughout the life of the plant in accordance with the provisions of 10 CFR 50, Appendix E.

* (B) Site evacuation exercises will be conducted annually utilizing applicable provisions contained within the Emergency Plan. The exercise shall involve coordination with offsite support groups and include communication checks.

(C) The Emergency Plan and implementing procedures shall be reviewed on an annual basis by the PORC and SRC.

6.14 FIRE PROTECTION PROGRAM

6.14.A An independent fire protection and loss prevention inspection and audit shall be performed annually utilizing either qualified licensee personnel or an outside fire protection firm.

6.14.B An inspection and audit by an outside qualified fire consultant shall be performed at intervals no greater than 3 years.

*Effective January 1, 1982

SAFETY EVALUATION

RELATED TO

SITE EVACUATION EXERCISE SCHEDULE

POWER AUTHORITY OF THE STATE OF NEW YORK
JAMES A. FITZPATRICK NUCLEAR POWER PLANT
DOCKET NO. 50-333

Section I - Description of Modification

The proposed changes to Appendix A (Technical Specifications) to the James A. Fitzpatrick Operating License seeks to amend Section 6.13(B), "Emergency Plan," on page 258 by adding a single footnote.

Section II - Purpose of Modification

The NRC Office of Inspection and Enforcement has recently notified the Authority that our existing plans for emergency exercises do not meet their interpretation of the requirements of 10 CFR 50 Appendix E. Insufficient time and an upcoming refueling outage (October 1981), prevents rescheduling a fully compliant drill in 1981. The proposed amendment postpones the required exercise until 1982. Postponing the exercise will permit time for participating parties to incorporate the experiences of the Niagara Mohawk exercise.

Section III - Impact of the Change

These proposed changes will not impact operations at JAF or the implementation of the emergency plan.

Section IV - Implementation of the Modification

These changes as proposed will not impact the ALARA or Fire Protection Programs at JAF.

Section V - Conclusion

The incorporation of these modifications: a) will not change the probability nor the consequence of an accident or malfunction of equipment important to safety as previously evaluated in the Safety Analysis Report; b) will not increase the possibility for an accident or malfunction of a different type than any evaluated previously in the Safety Analysis Report; and c) will not reduce the margin of safety as defined in the basis for any Technical Specification, and d) does not constitute an unreviewed safety question.
