AT NUCLEAR POWER PLANTS

Gentlemen:

Your December 22, 1980 letter requested the submittal of additional information by September 22, 1981. Per discussion with Mr. M. Fairtile, Georgia Power Company requests an extension of this deadline to October 13, 1981. Our engineering consultant has informed us that the preparation of our report has fallen behind schedule. We therefore require additional time if we are to perform a complete review and ensure that the report is responsive to the NRC request.

If you have any questions, please contact my office.

Yours very truly,

J. T. Beckham, Jr.
