Mr. Ronald C. Haynes, Director
U. S. Nuclear Regulatory Commission
Office of Inspection and Enforcement
Region I
631 Park Avenue
King of Prussia, Pennsylvania 19406

Subject: IE Bulletin No. 81-02, Supplement 1, Failure of Gate Type
Valves to Close Against Differential Pressure
R. E. Ginna Nuclear Power Plant, Unit No. 1
Docket No. 50-244

Dear Mr. Haynes:

In response to IE Bulletin 81-02, Supplement 1, we have determined that there are no Westinghouse-EMD manufactured motor-operated gate valves installed, or maintained as spares for installation, in any safety related systems at Ginna. Approximately two hours were expended conducting this review and in preparing this response.

Very truly yours,

John E. Maier
