

Frederick W. Schneider

Vice President  
Production

Public Service Electric and Gas Company 80 Park Plaza Newark, N.J. 07101 201/430-7373

September 17, 1981

Mr. Ronald C. Haynes, Director  
U.S. Nuclear Regulatory Commission  
Office of Inspection and Enforcement  
Region I  
635 Park Avenue  
King of Prussia, Pennsylvania 19406

Dear Mr. Haynes:

NRC IE BULLETIN NO. 81-02 SUPPLEMENT 1  
FAILURE OF GATE TYPE VALVES TO CLOSE  
AGAINST DIFFERENTIAL PRESSURE  
SALEM GENERATING STATION  
UNITS NO. 1 AND 2  
DOCKET NOS. 50-272 AND 50-311

In response to the subject Bulletin supplement, we have reviewed Salem Generating Station and have determined that we have no Westinghouse Motor Operated Valves (WMOV) installed in safety related systems at Salem, nor do we have any spare WMOV.

At your request we have estimated a total of ten engineering man-hours to review and respond to Supplement 1 to Bulletin 81-02.

Sincerely,

A handwritten signature in cursive script, appearing to read 'F. Schneider'.

FREDERICK W. SCHNEIDER, being duly sworn according to law deposes  
and says:

I am a Vice President of Public Service Electric and Gas Company,  
and as such, I find the matters set forth in our response dated  
September 17, 1981 to the NRC's Bulletin, Supplement 1, titled  
"Failure of Gate Type Valves to Close Against Differential Pressure"  
are true to the best of my knowledge, information, and belief.

  
FREDERICK W. SCHNEIDER

Subscribed and sworn to before me  
this 18<sup>TH</sup> day of September, 1981

  
Notary Public of New Jersey

My Commission expires on Oct. 1, 1983
