Volunteering for ERDS Implementation

Gentlemen:

AP&L has followed development of the Emergency Response Data System (ERDS) for several years. In fact, ANO was one of the plants visited (in Spring 1986) during the development of the concept by the NRC. AP&L has evaluated the information describing the proposed ERDS, and the NRC's intentions for its implementation, as discussed in Generic Letter 89-15, dated August 21, 1989 (ØCNAØ88924). Because of the anticipated benefits of this effort, AP&L has decided to volunteer for participation in the ERDS program. In accordance with your request in GL 89-15, the ERDS development contact for AP&L has been identified as the ANO Computer Support Superintendent, Mr. Mark A. Smith. Please feel free to contact him at (501)-964-3164 as necessary to discuss and develop the details of ERDS implementation for ANO-1 and 2.

Should you have any questions regarding this issue, please feel free to call.

Very truly yours,

  
James J. Fisicaro  
Manager, Licensing
