Request for Voluntary Participation in NRC Regulatory
Impact Study Generic Letter 90-01

Gentlemen:

In response to your correspondence of January 18, 1990 (ØCANØ19Ø2Ø), Generic Letter 90-01 "NRC Regulatory Impact Survey," AP&L is providing the enclosed information. Since AP&L does not keep detailed records of manhours spent on regulatory inspection activities, the enclosed information represents only estimates.

We support the NRC's efforts to assess the impact of regulatory inspections upon manpower resources and to utilize that assessment to improve the application of the regulatory process.

Should you have any questions, please do not hesitate to contact my office.

Sincerely,

NSC/mb
