Director, Office of Nuclear Reactor Regulation
U.S. Nuclear Regulatory Commission
Washington, D.C. 20555

Gentlemen:

Subject: Oyster Creek Nuclear Generating Station
Docket No. 50-219
Plant Referenced Simulator Certification
Supplemental Report

Ref: GPUN Letter C321-92-2352, "Certification of Oyster Creek
Plant Referenced Simulator", C.A. Mascari to Director,
Office of NRR, dated December 31, 1992.

On December 31, 1992, GPUN certified to the NRC that the Oyster Creek Plant Referenced Simulator meets the requirements of 10 CFR 55.45. GPUN stated additional information and test abstracts in support of this certification will be provided by February 28, 1993.

The enclosed supplemental report contains the above information. The format of the enclosed report parallels the format of the certification submittal. Sections that are updated or supplemented are identified therein.

If there are any questions regarding this matter, please call Mr. Michael Heller, Licensing Engineer, at (609) 971-4680.

100004

Sincerely,

C.A. Mascari
Vice President and Director
Nuclear Assurance
